EDUCATION

Coimbatore Institute of Engineering and Technology,
Coimbatore — *B.E.CSE*

MONTH 2023 - MONTH 2027

Sri Vikasa Vidyalaya Matric Hr.Sec.School, Uthamapalayam

MONTH 2011 - MONTH 2023

PROJECTS

Hotel Management System — *Built using HTML, CSS and Javascript*

Developed a web-based hotel management system that enables users to book rooms, manage reservations, and view real-time availability. Designed a responsive UI using HTML and CSS, while JavaScript was used for dynamic interactions and data processing. Implemented features like customer registration, room categorization, and booking confirmation to enhance user experience.

Library Management — *Built using Python and SQL*

Developed a database-driven system for managing book records, member registrations, and borrowing transactions. Used MySQL for efficient data storage and Python for backend processing and user interactions. Implemented features like book search, due-date tracking, and automated return notifications.

Sales Dashboard — *Built using Excel*

Designed an interactive sales dashboard to track revenue, customer trends, and product performance using Excel functions and pivot tables. Implemented data visualization with charts and conditional formatting to enhance insights for business decision-making.
